

ABHISHEK SHASTRI

Software Engineer 3 - Frontend

Bangalore, India

Frontend Engineer with 7+ years of experience building scalable, high-performance web applications using React and RoR, Nodejs. Owns web systems end to end, creates reusable component libraries at scale, and drives engineering excellence with a strong focus on quality, reliability, and AI-assisted productivity.

CORE SKILLS

- **Frontend:** HTML5, CSS3, responsive & cross-browser UI,React, JavaScript (ES6+), Redux, Hooks, React Router, Component libraries, Composable UI, micro-frontends, code splitting, lazy loading, Performance optimization, WCAG compliance, Cypress, React Testing Library
- **Backend, APIs/ DevOps & Tooling:** REST APIs, Node.js (async workflows), Ruby on Rails, web sockets, CI/CD, AWS S3, CloudFront

PROFESSIONAL EXPERIENCE

Software Engineer 3 - Frontend

Cashfree Payments, Bangalore | Apr 2026 – Present

Tech Stack: React.js, Next.js, TypeScript, Redux,, REST APIs, Storybook, Webpack, AWS

- Leading frontend development for merchant-facing payment products, delivering scalable, secure, and high-performance web applications.
- Developed an E2E Merchant Onboarding Platform, featuring KYC document uploads, OTP verification, bank account validation, and automated compliance workflows.
- Built a Payment Gateway Checkout solution supporting Cards, UPI, Net Banking, Wallets, and EMI, incorporating robust error handling and automated retry mechanisms for reliability.
- Optimized checkout performance through advanced rendering improvements, API optimizations, and code splitting.
- Implemented comprehensive CI/CD automation pipelines for unit and UI test cases using Jest and Playwright to ensure code quality and deployment stability.

Engineering Lead

Vegrow, Bangalore | Aug 2024 – Mar 2026

Tech Stack: ReactJs, NextJs, storybook, cypress, Webpack, Ruby on Rails, Jenkins, AWS S3, Cloudfront

- Designed and owned scalable React applications for internal business teams, including a **banana export operations dashboard enabling ~150 container dispatches per week**, contributing to frontend architecture focused on performance, scalability, and long-term maintainability.
- Built an **end-to-end Customer Onboarding & Relationship Management system**, replacing a third-party CRM, **reducing annual costs by ₹45 lakhs** and **cutting customer onboarding time from 1 day to ~8 minutes**.
- **Improved engineering velocity by AI-assisted development (Windsurf, Claude AI) to reduce feature delivery time by ~33%** while maintaining high code quality and resolving production issues..

Senior Software Engineer

Vegrow, Bangalore | May 2021 – July 2024

Tech Stack: ReactJs, NextJs, Webpack, Ruby on Rails, Jenkins, AWS S3, Cloudfront

- Owned end-to-end webapps development for business-critical B2B applications, building scalable React UI and a composable architecture that enabled **instant payment collection, same-day (EOD) settlements**, and **Last Mile Delivery Workflows**, reducing payment cycles from **3–7 days to same day**.
- Built and standardized a shared component library and composable UI system, **reducing bundle size from ~30MB to ~12MB**, improving load times, ensuring consistent UX across applications, and accelerating feature development across teams.
- **Optimized frontend build, deployment, and runtime performance** through advanced Webpack configuration, code splitting, and CI pipeline improvements, **reducing deployment time from ~30 minutes to ~4 minutes with zero downtime**, while ensuring efficient REST API integrations with robust async workflows, error handling, and improved runtime stability.

Staff Software Engineer

Drishiti (Acq. by Apple), Bangalore | Feb 2019 – Apr 2021

Tech Stack: Vuejs, Amcharts, Websockets, ShakaPlayer, Jenkins

- Developed data-intensive frontend applications using React for real-time analytics using Amcharts and monitoring systems using **WebSockets** and operational data using **ShakaPlayer**.
- Focused on frontend performance optimization and debugging for real-time applications using **Vue DevTools, Lighthouse, Web Vitals, Webpack Bundle Analyzer** ensuring low-latency updates and stable user experiences under high-throughput conditions.

EDUCATION

B.Tech in Computer Science and Engineering (Aryabhatta Knowledge University, India) 2014 – 2018 | 8.27 CGPA
